Subject: Experienced programmer for Java Developer position

Dear Sir,

I would like to express my interest for a developer position. As a self-starter who's already had some strong experience as a programmer, I can offer to you:

- Four years' JavaEE programming experience with Eclipse, including JSF, Richfaces, Primefaces, Spring, Hibernate, Tomcat, Glassfish and Jboss servers, RESTfull WebServices and Android development
- Four years' SQL knowledge and DBMS Postgresql, MySQL, SQLite
- Hybrid mobile development experience with Apache Cordova, HTML5, CSS3, Javascript, knowledge in JQuery, Bootstrap frameworks
- Usage of Docker, Jenkins, Jfrog, Maven, Git and SVN
- Usage of Redmine for manage tasks
- Knowledge in Python and Ruby
- Adoption of agile methodologies, SCRUM and KANBAN
- Usage of Linux and Shell Scripting

For the past four years I have been working with JSF in Brazil, one year in Teresina and three years in Fortaleza. I stopped to work between 2013 and mid of 2014, when I went back as Java programmer, after six month I was a internship supervisor and more one year I gone for developement manager position. For personal reasons, I'm not regular in my actual job, so in my CV this appears as "Independent".

I am qualified as Software Analyst and Developer, be a development manager was a choice made by need of management, once company almost has been ruined for bad geston.

The key skills that qualify me for Java developer are excellent programming logic, no problems with syntax and exceptions, good studying of Java documentation and frameworks, besides actualize myself in trends of IT.

I am enclosing my CV for provides additional information on my background and qualifications. I look forward to hearing from you as soon as possible to arrange a time for an interview.

Kind regards,

Cleisson Vieira Barbosa
